BOAT and OUTBOARD MOTOR TITLE

Boat (eff. 8/2009); Outboard Motors (eff. 5/2011)

A title **DOES NOT** replace registration but is in addition to a registration.

A title provides ownership, and is required to secure ownership interest when a boat or outboard motor is financed.

The following completed documents are required to obtain a title:

- 1) Title application form
- 2) Bill of Sale or invoice (or Tax Certification Form R1331)
- 3) Original (MSO) Manufacturer's Statement of Origin (new boat)

The following fees apply:

- 1) Title Only - \$26
- 2) Title with 1 Lien - \$36 – \$10 for each additional lien (secure & release at time of application)
- 4) Duplicate Title \$23

If titled, the title **MUST** be surrendered at the time of registration and a new title issued.

If title is held by a lien-holder, it must be surrendered and a new title issued.

Titles issued for boats already registered are required to pay a duplicate registration fee of \$8 to get a corrected registration certificate. An affidavit for duplicate registration is not required for this purpose.

Boats must be registered to operate in state waters. See boat registration application form #55 for instructions.

Notarized documentation demonstrating chain of ownership to the applicant must be submitted with all applications.
